

Base, 25. sept. 2019

Prof. Dr. Fernando Hamuy Diaz de Bedoya
LACTRIMS President

Dear Fernando

ECTRIMS values the importance of maintaining a good relationship with LACTRIMS as well as the other CTRIMS societies and aims to encourage future collaborations. We thank you for taking the time to send us LACTRIMS' requests. Please find our comments to all points below.

1. ECTRIMS Symposium at the XI LACTRIMS congress, November 5 to 7 2020, at the Agora Convention Center in Bogotá Colombia.

ECTRIMS will commit to help LACTRIMS find speakers for a joint symposium during the XI LACTRIMS Congress.

2. Fellows of Junior Neurologist researcher in Latin America

ECTRIMS is happy to accept applications for postdoctoral, clinical training and MS nurses fellowships from Latin America. These applications will however compete with all applications based on the quality of the application.

3. Invitation of Latin American speakers to the ECTRIMS

ECTRIMS will consider speakers and chairs from Latin America for future congresses. We will aim to invite at least one active LACTRIMS representative to future ECTRIMS meeting. We would appreciate a list of possible speakers and chairs and their research topics. We will re-implement the «TRIMS» session in the congress programme starting 2021, which will provide a good opportunity for deeper LACTRIMS involvement.
